Subject: Public information Request

Good Afternoon,

We received a public information request back in July 2019, I have been trying to email a response for the information requested. We have been unsuccessful in this action, we have a failed message response when we try. Today 09/11/2019 we have received another fax requesting status of this request. Can someone contact me via phone so we can discuss a different options to reach someone for this request. Thank you and have a wonderful day

Sara Casares
